

Biography of Nitin Parmar

Nitin Parmar leads transformation in technology enhanced practice at the University of Bath where, as a Learning Technologist, he is based within the e-Learning team in the Learning & Teaching Enhancement Office.

His current interests include promoting the embedding of digital literacies in the area of graduate employability skills, undertaking an evidence based approach for the pedagogical development of new lecturers, and exploring Augmented Reality to enable rich digital experiences. He brings wider sector context and has bid for, received and contributed to several JISC and Higher Education Academy (HEA) funded projects, based both at the University of Bath and further afield.

During the last year, Nitin has acted as a Creative Producer for two University of Bath delivered MOOCs, which have been undertaken by several thousands of learners across the world through the UK-based FutureLearn platform.

Moving to the south west from the outskirts of London, Nitin read for a BSc(Hons) Computer Information Systems degree and completed a PGCE in Information & Communication Technology (ICT) during his first stay at the University of Bath. Following this, and as a member of Kellogg College, he read for an MSc in Educational Studies (e-Learning) at the University of Oxford.

He is a Fellow of the Higher Education Academy (FHEA) and a Certified Member of the Association for Learning Technology (CMALT). Nitin is currently studying for a Level 5 Certificate in Coaching & Mentoring in Management.

Outside interests include playing touch rugby, cinema, cooking, photography and travel. Confirming his love for the area, Nitin is a season ticket holder at Bath Rugby.
