## Engagement

We learned how to do THIS at the #EHULSCPD!

Here is a news story about how ipads are being used for augmented reality in health care.  
Chose it as it shows the potential power of mobile technology and advances in technology to make positive change

We think this video could be very useful to promote ... because the student nurse guest speaker was so thrilled with Discover More :-)

Hi everyone let me introduce the team that make up the Another One bites The Dust Team;

Joan 'Mercury' Cullen  
Keith 'Deacon' McWilliam  
Carol 'Taylor' Chatten  
Paul 'May' Appleton  
Martin 'Freddie' Baxter

This was new to us  
An ipad app for Turnitin

Will have a go at them all eventually for my own benefit when I'm helping students on the help desk

Next steps...

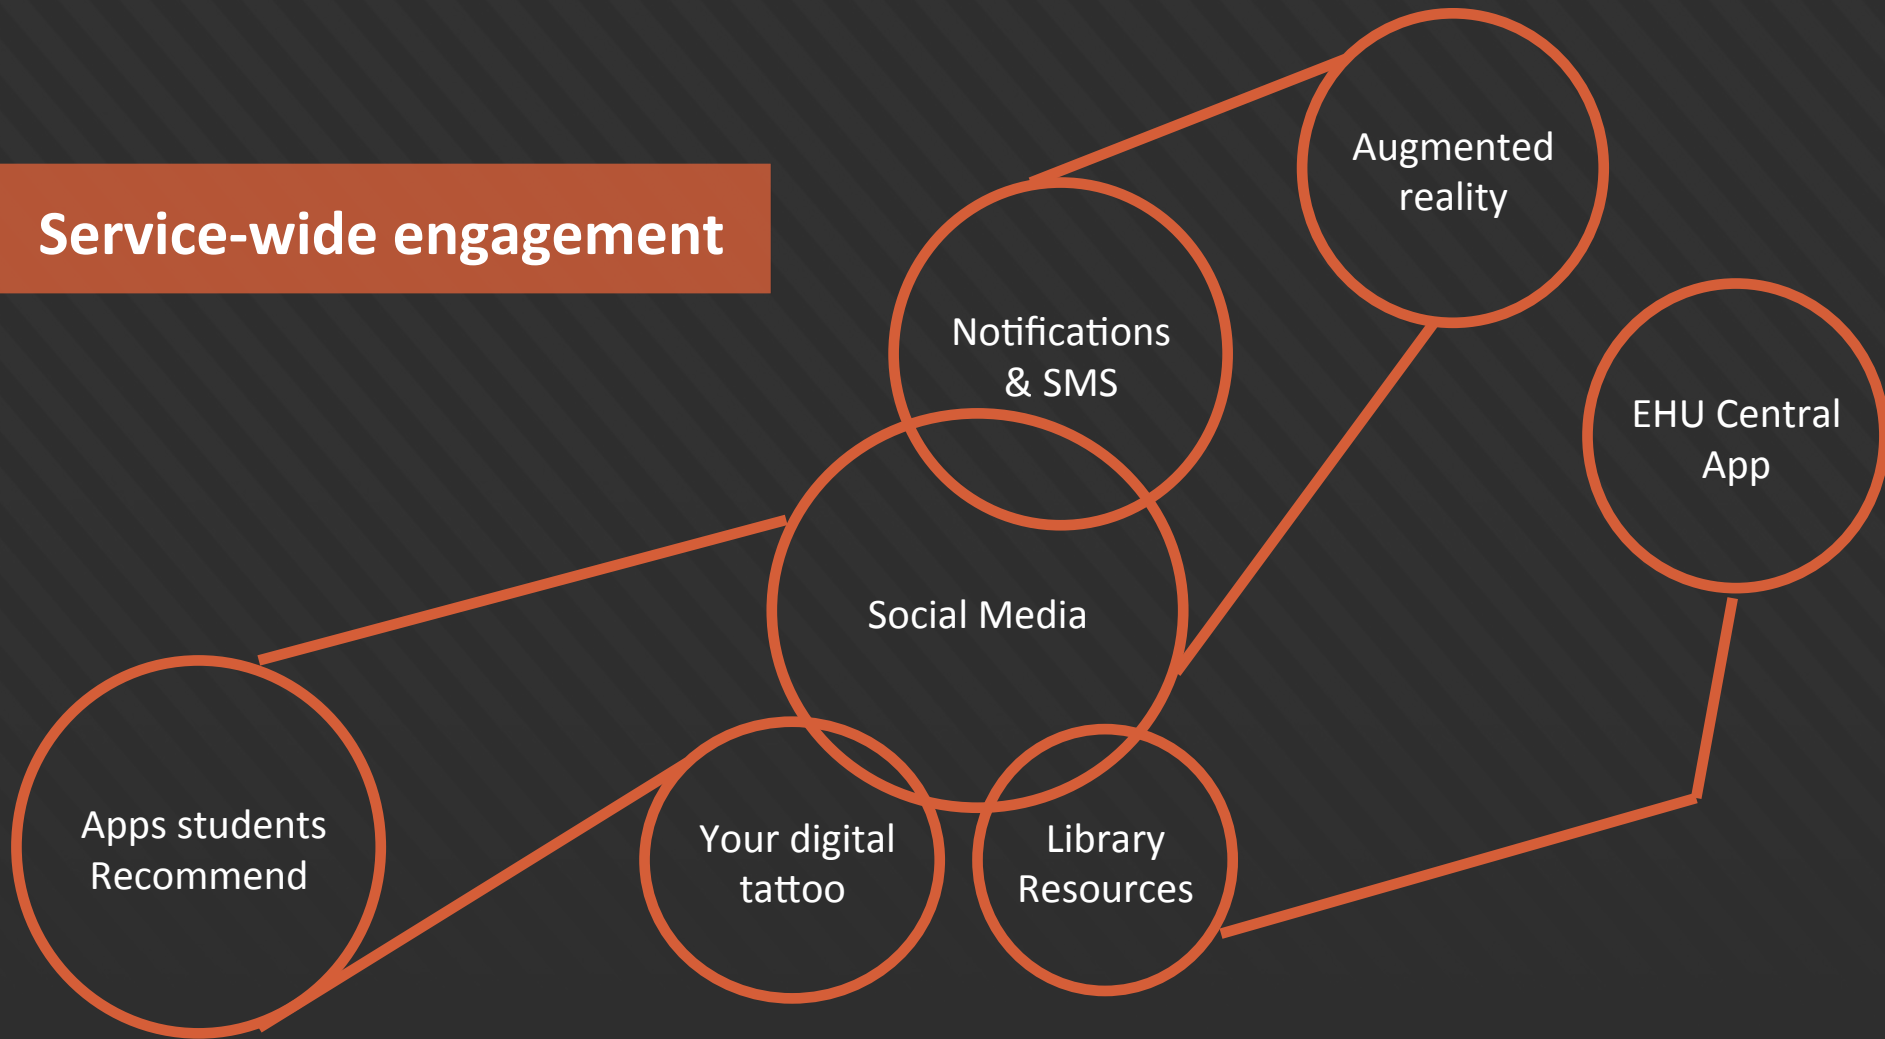

## Future priorities

## Service-wide engagement

## Getting started

Welcome to the law and criminology subject pages. These pages introduce the main learning resources available to support your studies of law and criminology. They also have guidance on using library services and details of further help and support. For news and information for Edge Hill law and criminology students, follow me on twitter. If you can't find what you need please get in touch with me, Sheila Murphy.

### Keep Calm and Submit this Christmas

Posted on [December 11, 2013](#) by [Carol Chatten](#)

The smell of spices, alcohol and pine, warm log fires, spending time with family and friends, crackers, pudding and brandy cream... Yes! It must be that time of year... end of semester one before Christmas and time for submissions!

We've drawn together some good practice to ensure that your submissions over the next week go as smoothly as you could possibly wish for. There are always chances of uncertainty, but with a little thought and preparation (like a good Christmas present) you'll be riding as high as Father Christmas himself as opposed to slipping up on black ice.

# Your Digital Tattoo...

WHAT DOES IT SAY ABOUT YOU?

---

*Enhance your digital reputation through the professional use of technology and social media.*

Lessons learnt	Progress made (and making)
Don't make assumptions	Focus support where the evidence indicates a need – Get connected roadshows
Tackle the obvious	Set priorities and evaluate
Staff can feel very uncertain about using social media	Demystify and enthuse – offer lots of opportunities for training
Just because it's there...	Make it visible
Staff responsiveness is key, but levels of engagement will vary	Planning is essential but being creative is equally important

Thank you
